HEALING TREATMENTS

A 60min MASSAGE AT NO CHARGE?!

Long Term Relief from whatever ails you:

You believe strongly in the power of the consistent application of effort.

You've seen in your own life how the regular input of energy achieves measureable results.

You know that this applies across the board.

So when it comes to your health, you are quite fine with the concept that something you want to fix might take a while.

So because you know all about the health benefits of massage, AND because you enjoy your massages, you are prepared to place yourself in my hands for some process work that, when applied correctly, will resolve the issue you came to me for.

Book a session of your choice for six weeks, on the same day and at the same time each week. Your 5th session will be charged at 50% and your 6th session will be complimentary.

This only applies to this offer.

You have to commit to the same time, same day for 6 weeks.

The "6 weeks" must occur in no longer than 8 weeks. This will allow for 2 rescheduling's, though I prefer no rescheduling's at all!

After you achieve tangible relief from the treatments, if you then wish to continue having treatments (to keep the problem away) then I will extend the same offer to you again, with the same t's and c's.
